Highlights:

- Active Subwoofer enclosure with integrated Class-D Amplifier
- Small dimensions: 340 x 71 x 225 mm, therefore easiest mounting, e.g. even under the front seats
- Digital Amplifier with high power output: 150 Watts RMS / 300 Watts Max. Power
- 200mm/ 8" Subwoofer with Aluminum Composite Cone
- Perfectly matching subwoofer with high rated and peak power handling
- Easiest connection – only 12 volts/ ground signal + the signal from the speakers or pre-amplifier required
- Automatic power-on via high level or RCA/Cinch input – no remote signal required
- Housing material: aluminum die-cast/ fiberglass reinforced ABS
- EPC compatible: easy connection via optional cable for power, ground and speaker signal (Easy Power Connection EPC)
