Break Through

DATSUN GO+

INDIA'S 1ST COMPACT
FAMILY WAGON.

There is a lot going on in your life,
and your car should help you
make it happen.

Presenting the Datsun GO+. A car
that's made to be as flexible as your
needs, the Datsun GO+ offers a 5+2
seating option that also doubles up
as extra space whenever you need it.

Now go ahead and make any plan,
the Datsun GO+ will surely fit into it.
You'll never have to make do.

THE DATSUN GO+.

IT KNOWS NO COMPROMISE.

**THE DATSUN GO+.
SPACE FOR ALL THAT'S YOUR LIFE.**

DRIVEN BY ATTENTION.

The Datsun GO+ is stuffed with all the loved features from the Datsun GO, and then some. Its stretched body design makes it ultra spacious and gives the freedom of choice so you can choose between comfortable seating or a large boot to carry your belongings. Its body design is distinctive and makes carrying things look good. The design is modern, with a sleek, dynamic silhouette and strong shoulder line. The clean body styling makes it stand out from the crowd. Let's just say that it's a bigger style statement.

1. Light your upward path with distinctive headlamps.
The Datsun GO+ sports iconic headlamps that mark your arrival and are very reliable on Indian roads so that you have a comfortable and safe drive.

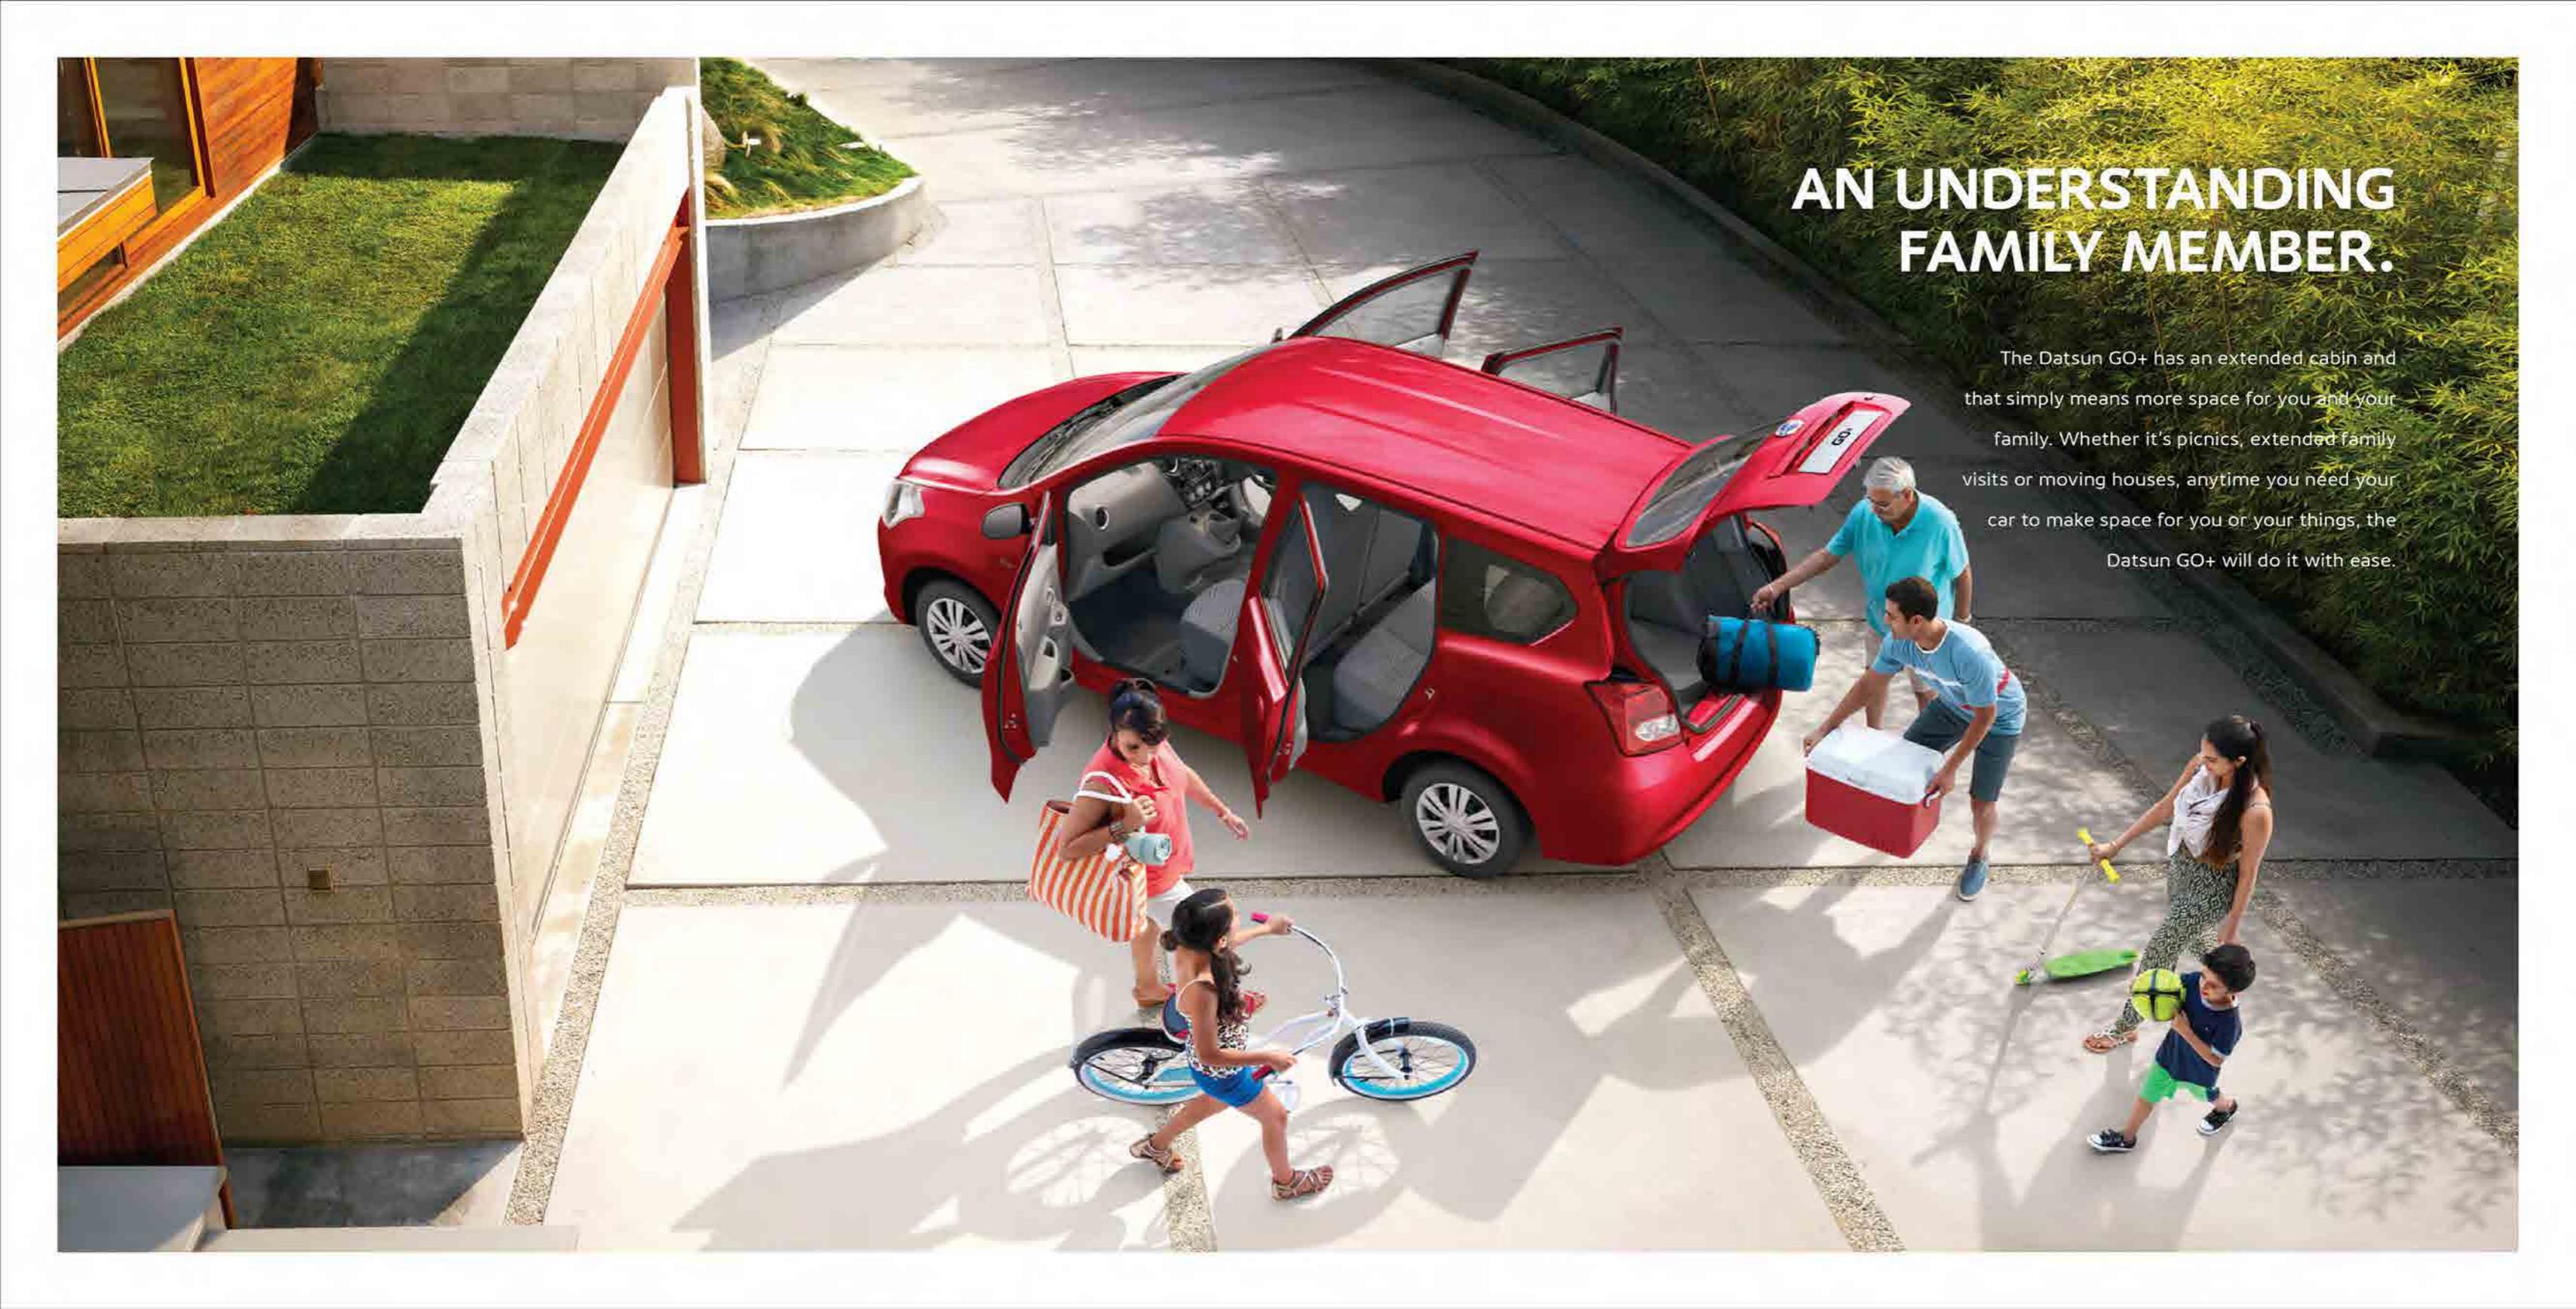

2. Grand Rear Shoulders.
The Datsun GO+ is made with care and it shows in the rear of the car. With its signature Rear Shoulders, the car stands apart from anything else in the segment.

3. Imposing Front Fenders.
The Datsun GO+ features bold fenders that add a touch of class and its 3D silhouette gives the Datsun GO+ enough character to stand out amongst the regular, everyday drives.

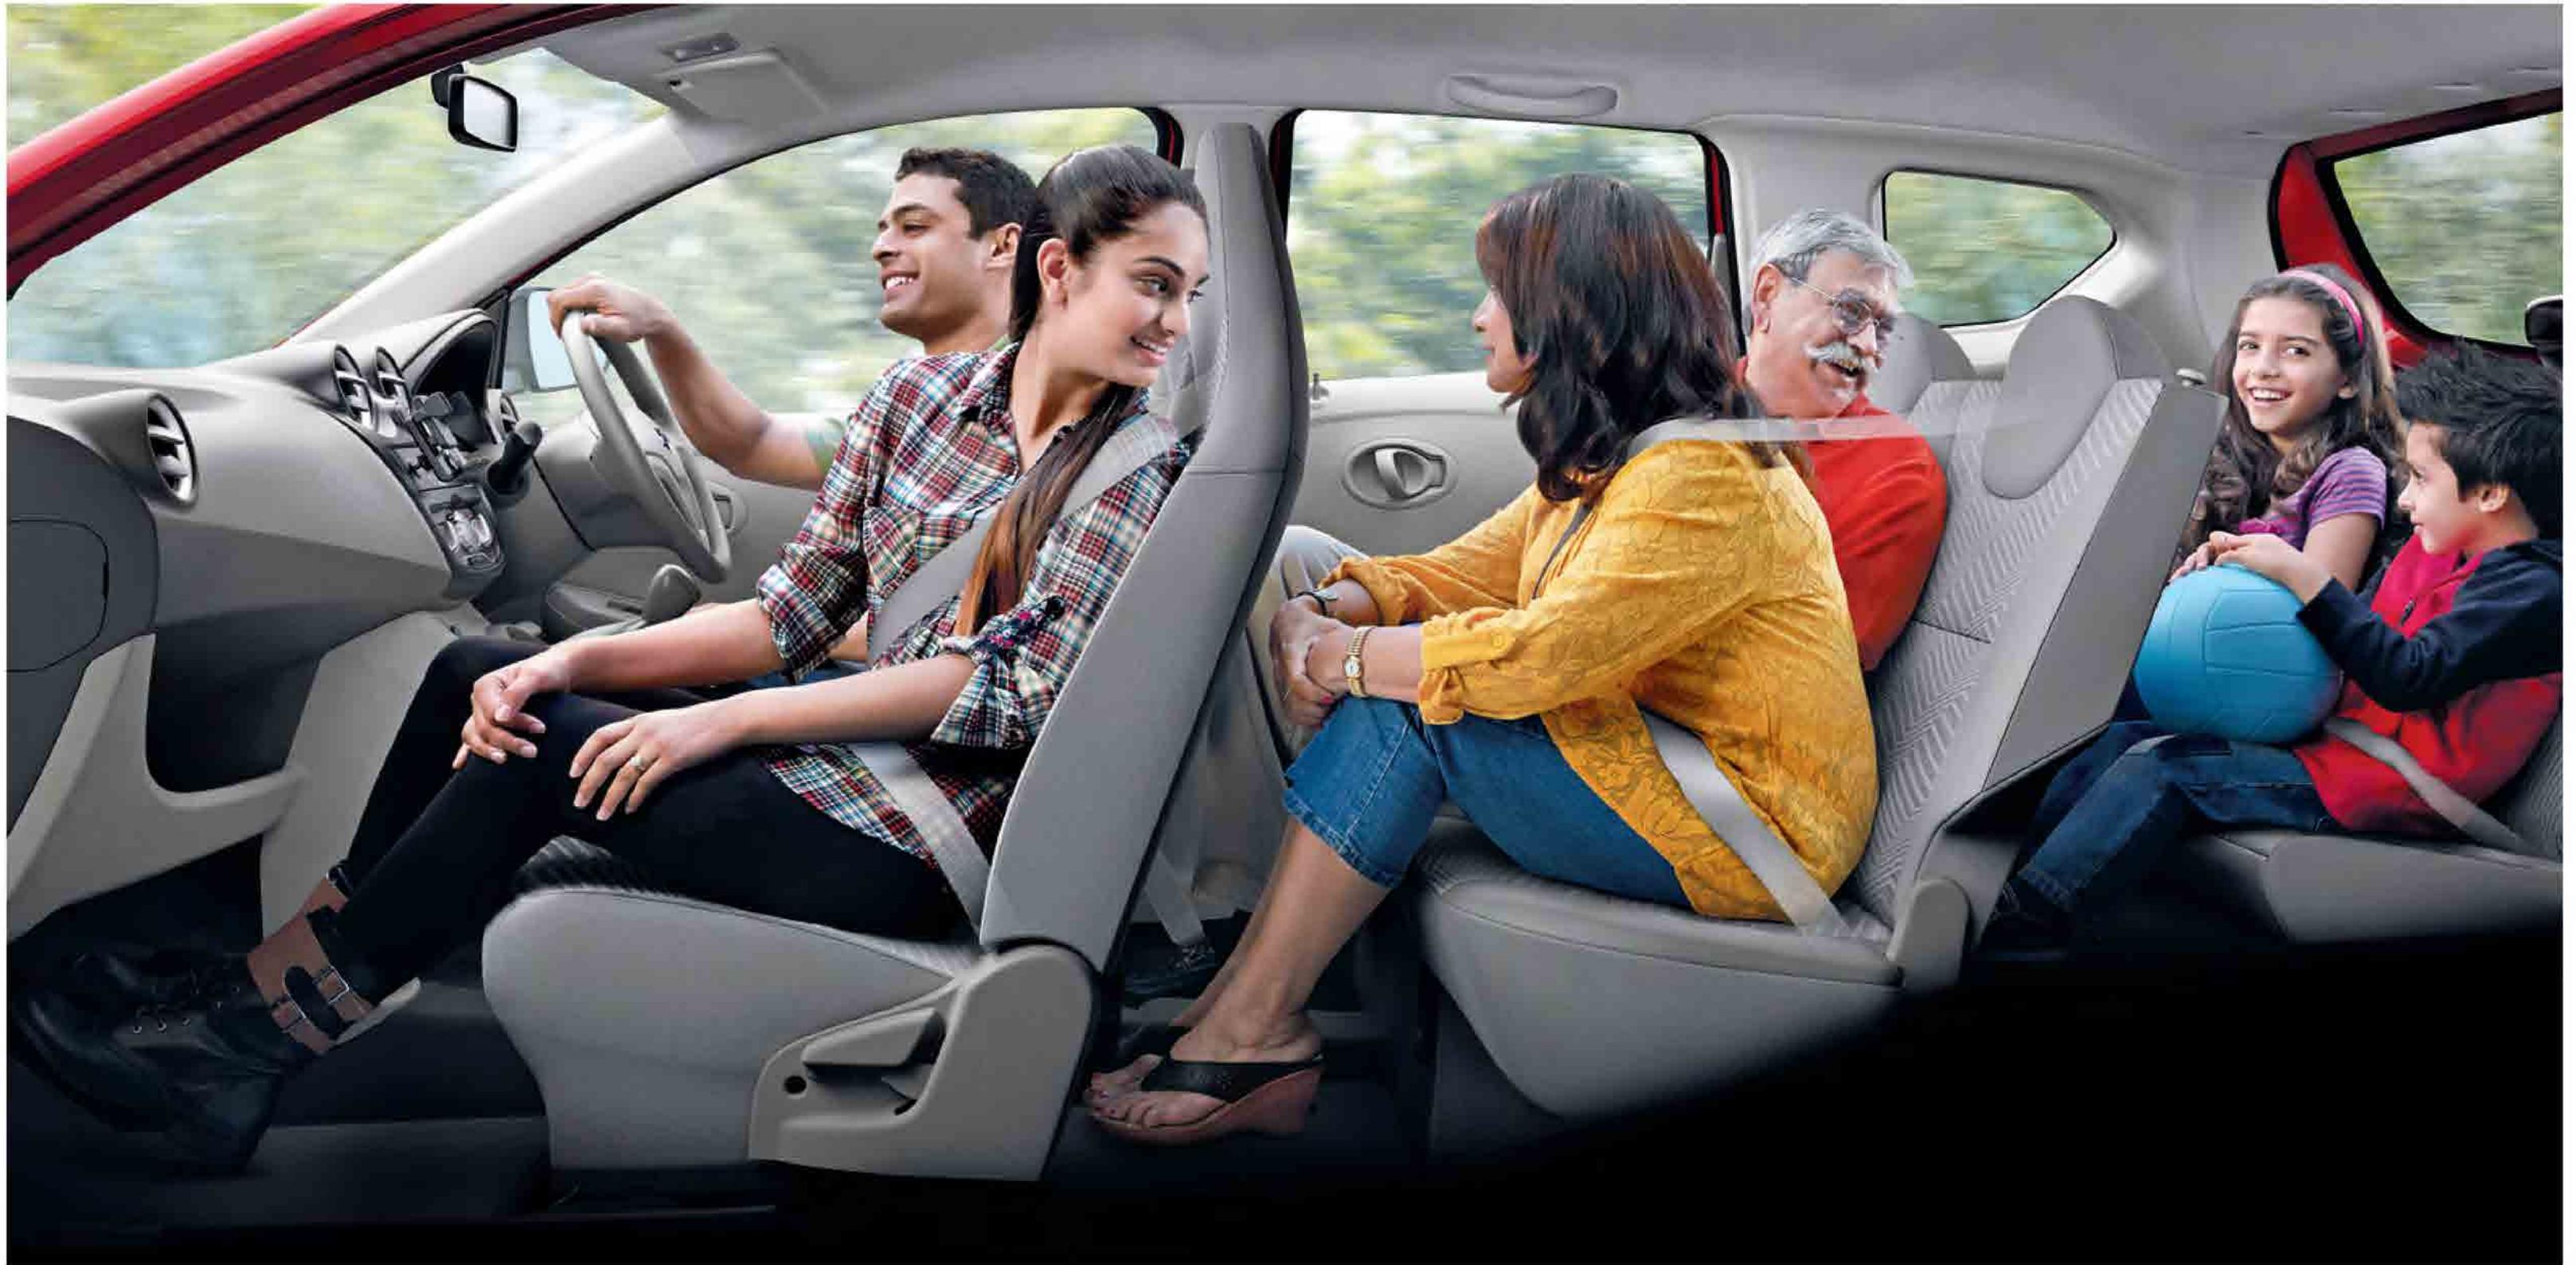

4. The Majestic D-cut Grille.
Announce your arrival without saying a single word with the Datsun GO+'s very own D-cut Grille. It has a cool honeycomb structure that makes sure you get noticed.

AN UNDERSTANDING FAMILY MEMBER.

The Datsun GO+ has an extended cabin and that simply means more space for you and your family. Whether it's picnics, extended family visits or moving houses, anytime you need your car to make space for you or your things, the Datsun GO+ will do it with ease.

A CAR THAT ADAPTS BEFORE YOU NEED TO.

Flexibility is the third row seat in the Datsun GO+; it can seat two or can fold up to become boot space for your things. Numerically, the third row can take you from 2 additional seats to 347L of space with a single fold.

BEST IN CLASS

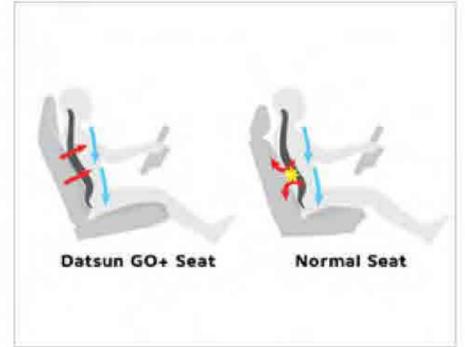

We've made space.

Datsun GO+ makes the car of your dreams a reality. With impressive acceleration and fuel efficiency, a spacious interior for family and friends, and plenty of room in the boot too, it's designed for the way you really live. And so accessible that you can stop wishing and start living.

Bad roads shouldn't give you a headache.

Everyone gets to stretch out in the Datsun GO+. Passengers sitting ahead can enjoy massive head room and shoulder room, while those sitting behind will feel like they're in a spacious sedan.

Connected Front Seats. Room for more.

The connected front seats of the Datsun GO+ make room for a purse or bag, plus it makes it easy to slide across and out of the other side in tight parking situations.

Ergonomic seat's got your back.

Be as refreshed when you step out of your car, as when you stepped into it. The Datsun GO+ has spinal support seats that adjust to your posture to reduce the pressure, optimize circulation and reduce fatigue from the pelvis all the way to the chest.

Enough space for your ever-changing needs.

The Datsun GO+ comes with 347L of boot space when folded. There's more space to fit more happiness.

Every seat will be the best seat.

Enjoy the comfort and premium feel of a class above as you sit back in your Datsun GO+.

One size fits all.

The Datsun GO+ comes with a flexible third row, ample headroom and spacious interiors. Yet, it's compact enough to fit into tight parking spaces. The best part is, you can stretch your legs without stretching your pocket.

MDS - The heart of your entertainment system.

With the Mobile Docking Station of the Datsun GO+, your smartphone mounts right on the dashboard and plugs into two door speakers. This makes you the DJ, and also gives you access to everything a smartphone offers.

Passenger Side Storage.

Plenty of space in the cockpit to store your belongings.

Door Pockets.

Space in the door trim to hold bottles and other small items.

BEAUTIFUL ON THE INSIDE.

Inside the Datsun GO+, simplicity and clean lines are the key. With an emphasis on thoughtful details that reflect quality. The elegant, dipping line of the dash, inspired by a bird's wing, just the right touch of silver accents, the gear shift lever placed on the instrument panel in easy reach of the steering wheel, and even the clever shape of the door handles. It all adds to make you not want to get out of the car.

Surrounded by Air.

Drive a car where everything, even the air conditioning vents, are special. The circular vents let you pinpoint exactly where you want the air to flow. You can even close them to force more air out of other vents. Also, the upper dash vents are perfectly placed to ventilate the rear seats, truly making the Datsun GO+ a cool car to drive.

Blue Color Print Meter with White Letters.

Provides enhanced visibility, so you're in control at all times.

Leather-feel Grain Dashboard.

Interiors with a leather grain finish that are as classy to see as they are to feel.

OUTPERFORMS. EVEN WHEN NO ONE IS WATCHING.

The Datsun GO+ is packed with modern technologies and features, from bonnet to boot. With its powerful 1.2L engine, advanced suspension system or the front ventilated disk brakes, the Datsun GO+ delivers the sort of performance that promises to exhilarate. This combined with features like the intuitive wiping system and the follow-me-home headlamps make your drive as safe as it is fun.

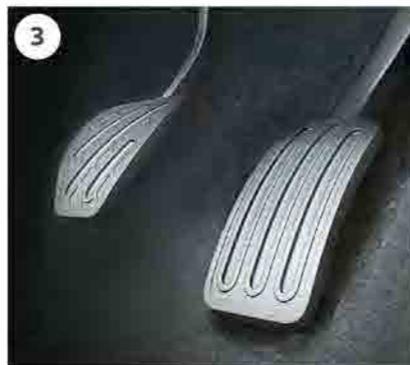

1. Space for power.

The largest-in-class 1.2L engine and a perfect circle bore machining technology deliver segment-leading power and torque. This, combined with a counterbalance system minimizes noise and vibration for a quiet ride. It's almost as if the Datsun GO+ is part race car.

2. Advanced Suspension system for a smooth drive.

The Datsun GO+ is engineered to respond quickly to your input and take the bumps in its stride. The front suspension with a double-pivot front arm and a high-response damper provide greater agility while quickly absorbing irregularities on the road. Now, you're the master of your drive.

3. Make your way ahead smoothly.

Step on the accelerator and notice how smoothly it responds. That's because it's controlled electronically – not by a cable – which also means less maintenance and lower emissions.

4. Be in control with Ventilated Disk Brakes.

For the rare times that the joyride needs to stop, the Datsun GO+ gives you the largest-in-class 22mm front ventilated disk brakes. This special system increases the longevity by reducing the brake fade from overheating.

5. Follow-me-home Headlamps. The headlamps of the Datsun GO+ will guide you all the way to your doorstep. Click the passing switch once for 30 seconds of light and up to four times for 120 seconds. It feels good when your car looks out for you.

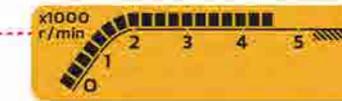

6. A clean road ahead. Bad weather needs good wiping. The wiper intuitively adjusts its speed to the speed of the car to give you greater visibility. Plus, the windshield wiper comes with a special mode that waits a few seconds and clears away the last few drops before returning.

7. Know what your Datsun GO+ is up to.

Calling it the Smart Meter is an understatement! It has a digital tachometer, a gear shift guide that shows the ideal speed to shift up. The Drive Computer displays fuel consumption, the average and, particularly helpful, the distance to empty.

Digital Tachometer

Drive Computer

8. Electric Power Steering to keep you ahead.

Sometimes you want more steering assist, other times you don't. In the Datsun GO+, you can adjust the level of power assist according to how fast you're driving. Get more assistance at lower speeds and make the steering tighter when you're going fast. In the Datsun GO+, control is never out of reach.

9. A Quick Turn Around.

In spite of a longer wheelbase than other cars, the Datsun GO+ still has the best-in-class turning radius of 4.6m. Handy when you need to make a quick turn on a narrow street.

Not a guzzler.

Datsun GO+ gets an impressive 20.6 kmpl - competitive in its segment, even though Datsun GO+ is bigger inside and out.
