The New Touareg

Dominate.

The New Touareg brooks no opposition. Be it on a treacherous desert path or a highway through a concrete jungle, this SUV commands respect. And gets it.

A majestic physical presence that can easily get down and dirty should the situation so demand, the New Touareg is that rare combination of premium comfort and pure muscle. The powerful engine can beat down the roughest terrains while you remain cocooned within the refined and luxurious interiors.

With the New Touareg, it's not whether you can stand up to a mountain. But rather whether the mountain can stand up to you.

Off-road performance.

The New Touareg has adventure in its DNA. And it shows in the many off-road capabilities of this bold new SUV.

1. Wading depth of up to 500 mm, in case you decide to drive across a raging river.
2. Whether it's going uphill or downhill, the New Touareg is always at ease. With its hill climbing ability of up to 45 degrees, and hill descent control that's activated automatically, at certain angles, as it goes downhill.
3. Completely at ease on gradients of up to 35 degrees the New Touareg drives safely even on sloped roads.
4. Easily able to handle a ramp angle of up to 27 degrees. The stray tree trunk across the road will no more be difficult to surpass.

Exteriors.

Bold, powerful and dynamic. The exteriors of the New Touareg enhance its already domineering presence on the road, or off it. Giving you an SUV that's not afraid to go where your spontaneous spirit might take you.

1. Fog lights

Front fog lights with a static cornering function provide intense illumination, ensuring better visibility and safe driving, come thick fog, snow or heavy rain.

2. Electric door mirrors

Clear visibility of the terrain behind you is essential for a thrilling off-road driving experience. That's why, our electric door mirrors are easily controlled and can be folded and adjusted from inside. They can also be heated separately. Aspherical door mirror on driver's side also ensures a better view.

3. Tail lights

Beautifully designed tail lights add that touch of aesthetic appeal to the action-packed New Touareg.

4. Panoramic sunroof

Nothing like the wind in your hair as you drive through the toughest of environments. The New Touareg now comes with an electronically sliding glass roof that can also be conveniently closed from the outside with the mere press of a button.

5. Roof rails

Falling short on supplies while taking on the wrath of nature isn't recommended. That's why, the New Touareg comes with solid roof rails that allow you to strap on the bulkiest of travel kits and luggage. So you can be prepared for whatever nature has to throw at you.

Interiors.

With the finest materials, exceptional craftsmanship and the most up-to-date equipment, you just might not want to get out of the all New Touareg.

1. Multimedia

The multi-function display located directly in the driver's view is a compact information unit which ensures convenience and safety. The New Touareg also offers a RCD 550 with MP3 and MP4 compatibility and an integrated 6-CD changer attached to 8 speakers. In addition to this, the audio module also offers MEDIA IN with USB adaptor cable & AUX-IN options.

2. Air-conditioning

The New Touareg comes with a 4-zone electronic climate control system that enables the driver and front passenger to separately select their preferred temperature setting.

3. Adjustable seats

The New Touareg's 14-way electrically adjustable front sports seat offers absolute comfort to the adventurer, whatever size he might be. What's more, the Vienna leather upholstery ensconces the driver in luxury, further enhancing his experience of driving one of the finest SUVs on the road.

4. Leather wrapped steering wheel

Leather trimmed and ergonomically designed for total convenience, the steering wheel on the New Touareg offers the driver excellent control. Essential, in conquering those edge-of-the-cliff moments.

5. Voice recognition system for telephone operation

Answering your cell phone while navigating your way through wild terrain can be quite risky. That's why the New Touareg comes with a thoughtfully designed voice recognition system that allows you to pair your cell phone via Bluetooth to your vehicle. Allowing you to make and answer calls through a mere "hello".

Safety.

A combination of intuitive state-of-the-art technology and exceptional performance, the safety features on the all New Touareg make your safety top priority.

1. Headlights

The Bi-Xenon headlights feature dynamic curve lighting and a static cornering function that help provide better illumination around bends and corners. Further, daytime running lights, rear tail lights and rear number plate lights utilise LED technology to ensure the vehicle remains clearly visible on the roads.

2. ESC

Nature can throw surprises at you when you least expect it. That's why, the ESC (Electronic Stabilisation Control) works automatically to compensate for under and over steering and helps maintain the vehicle's stability under tricky conditions.

3. ABS

The ABS Plus (Anti-lock Braking System) shortens the braking distance on loose ground, such as sand, gravel or grass, by up to 20%.

4. BA

A moment of distraction is all you need to lose control of the vehicle. Thankfully, the New Touareg comes with BA (Brake Assist) that applies full brake pressure, instantly, in an emergency situation.

5. Airbags

Safety always comes first on an expedition. That's why the New Touareg comes with driver and passenger seat airbags. Not to mention, airbags for the rear passengers that activates in case of a collision.

6. Auto-hold function

The Auto-hold function in the New Touareg prevents the vehicle from rolling away accidentally when standing still or when descending a particularly steep slope. Making the New Touareg sure-footed on the steepest slopes.

Wheels.

For a touch of individuality and personality, 'Karakum' 8J x 18 inch alloys, with 255/55 R18 tyres are an eye-catching range of alloys that have been carefully chosen to complement the exterior styling of the New Touareg.
